fecting the mining industry and con-sequently general business, and the tight money market in the east. As far as silver is concerned, the shrewd-est observers believe that it will not get any worse, and most of them think there will be a marked improvement

there will be a marked improvement inside a month.

The conviction is becoming settled that the present low price is due to manipulation, aided by the forcing of large amounts of silver on the market by China to pay her indemnity. As soon as the temporary flurry is over it is believed the price will go up again. In any event, most of the Utah producing mines are in a posi-Utah producing mines are in a posi-tion to keep up operations ever though the price goes still lower. With the copper mines coming rapidly to the front, and the more remote probability that the iron resources will b developed, Utah is in a better position than most of the states.

Money Situation.

The common belief among the best informed is that the worst has been passed in the eastern money situation. During October and November there question that the situation was al. This crisis has been gone through, however. Within a little over a fortnight, annual, semi-annual and quarterly dividends will be paid all over the United States, and something over \$150,000,000 will be distributed. This amount must necessarily seek investment and the outlook is for an

easier money market.

Nevertheless, the tendency all over the United States is toward conservatism. During the riot of consolida-tions, reorganizations and trust forma-tions, there was an enormous water-ing of stocks. The big syndicates are carrying huge amounts of stocks that they cannot unload on the public under present conditions, and it will be some time before the situation reaches nor-mal, and the public is ready to absorb

One of the most encouraging features of the local situation, looking toward the future, is the positive announce ment that every cent necessary for the building of the Moffat road, the Denver. Northwestern & Pacific, between Denver and Salt Lake, has been raised Renewed confidence is felt that this road will actually be built. The posroad will actually be built. The pos-itive assurance of a railroad between Salt Lake and Los Angeles, as well as of the Denver-Salt Lake line, has given added confidence in the permaof local investments

Local Trade Good.

Regarding local trade conditions during the week, George Rust, inter-mountain manager for R. G. Dun &

o., says: "The holiday retail trade is beginning, and it is fully up to the average. The jobbing trade is satisfactory, with especial activity in holiday goods. Collections are rather slow.

"The heavy snows in the mountains make the outlook encouraging for next

season, as, with ordinary good luck, large crops are assured. There will be plenty of water in all cultivated portions of Utah and Idaho.

"The low price of silver, while it has had a rather depressing sentimental effect on business, has not so far resulted in any perceptible curtailsment of trade. Most people believe that the price will rise again before

Bankers are inclined to be conserva tive, but deposits are keeping up well and there is plenty of money to loan on high grade securities at 6 per cent and upward.

The demand for investment securities has been strong. Sugar stocks have been in especially good demand. This is due principally to the increase during the week of 20 cents a hundred on refined sugar, and the understanding that the sugar war has been settled, The outlook is that the price for the product will go a trifle higher before it will go lower, while the heavy snows indicate that there will be a good crop of beets next season.

Increases Its Capital.

The Utah Sugar company yesterday voted to increase its capitalization to \$6,000,000, half preferred and half common. There have been heavy sales of both kinds of stock at advancing prices. Broker E. L. Burton alone has sold \$4,000 worth of Utah Sugar preferred (options) during the past week, and \$15,000 worth of Amalgamated pre-\$15,000 worth of Amalgamated pre-ferred. The Utah preferred calls for a 7 per cent annual dividend. This means \$210,000. As the old company has been paying 8 per cent on \$3,000,000, or \$240,000 a year, no fear is expressed that the preferred dividend will not be taken care of, although the holders of com-mon stock may have to wait one to three years for return on their princ pal. The preferred stock has sold up from \$9.90 to \$10, which is par, while the common stock is quoted around \$4. This makes the old stock, exchangeable for the new certificates, worth \$21, at which price it has sold, an advance of 40 cents a share for the week. The belief that Amalgamated Sugar common

SALT LAKE & OGDEN ROAD

WORK ON EXTENSION TO BE RESUMED AFTER NEW YEAR'S.

AILS for the Salt Lake & Suburban road have been ordered. It is not probable that the order will be filled before next spring, but the steel will be on hand when the company is ready for it. Some of the eastern capitalists interested in the road are also interested in the steel plants in the east.

In spite of the unfavorable weather a force of men is kept at work on the grading. There is a great amount of filling and excavating to do, and it is the desire to get as much of the work on the steel of the weather. The frost done this winter as possible. Progress has, however, been more or less retarded by the weather. The frost content is will be beginning of the present action, and causes considerable difficulty. Several plows have been broken in trying to turn up the frozen ground. The company hopes to have the heaviest work on the cuts done by the beginning of spring, notwithstanding the drawbacks.

Burlington Route

FROM MONTANA transmits money and this bouquet:

THE GENTLEMAN

"Believing as I do, that the Burlington is the best allround railroad on earth, I enclose you herewith sixteen
cents for one of your wall
maps. When I write my
friends East, who are coming
to this country, I always write:
'Come over the Burlington; the
best coaches, the best time, the
most gentlemanly officials, the
most accommodating employes, accommodating employed the best in all ways."-Pierson, Gebo, Montana The next time you go east, just try the Burlington, Perhaps you'll write a compli-

mentary letter.
